GF Bracket

GGRIPPLE

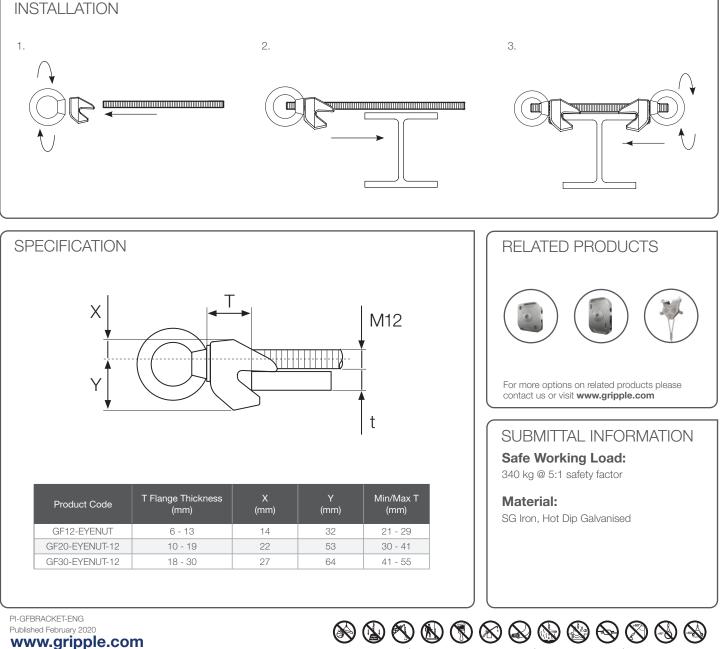

Accessory

The GF Bracket is ideal for clamping onto an I-Beam when it's not possible to loop around with a catenary cable, or when the size of the beam is too great.

FEATURES / BENEFITS

- Simple fitted easily and securely by hand, no on-site power required
- Quick removes the need to loop around an I-Beam
- Safe ideal for large beams that would create > 60° angles at the Lockable Plus
- Aesthetic provides a robust and well-engineered visual impact
- Versatile available to suit I-Beam flange thicknesses from 6 mm to 30 mm
