

Accessory

Enables pipes to be installed at varying heights from the bracket; ideal for instances where different sized pipes require aligning along the centre axis. For use with M8 rod and the Gripple Universal Clamp.

FEATURES / BENEFITS

- **Finite adjustment** – used with M8 rod and Gripple Universal Clamp, make height adjustments to suit exact requirements of the installation
- **Quick installation** – simple quarter turn attachment to Gripple Brackets
- **Versatile** – enables pipes of different sizes to be installed along the centre axis and condensate pipes to be installed at a gradient for drainage. Also allows attachment to a Gripple bracket of any M8 threaded component
- **Compatible** - allows attachment of any M8 threaded component to a Gripple bracket
- **Universal** – replaces more than 13 different pipe ring sizes, when used with the Gripple Universal Clamp

INSTALLATION & ADJUSTMENT

Please note, not supplied with Gripple Universal Clamp and M8 rod
